## Exotic Wood Models

In keeping with our tradition of creating beautifully innovative guitars, Ovation introduces the Small Batch Run of Exotic Wood Elite Plus & Legend Plus models. Featuring eye-popping exotic wood tops, beloved Ovation electronics and legendary performance capabilities, these breathtaking instruments were built to inspire. The hand-selected Exotic Wood tops and LX scalloped bracing responds evenly from the lightest touch to hard-grinding power chords. With its onboard compressor, the OP-Pro Studio preamp enhances strummed chords, finger-picked arpeggios, and single-note solos. Connect to virtually any sound system, stage amp, or recording console and experience the rich tonal quality of the Elite Plus and Legend Plus.

## Legend Plus

Ovation's Legend Series is world-renowned for its superb tone. The center sound hole of this guitar offers unparalleled projection and clarity that brings life to any playing situation. A cutaway offers full access to the gloss-finished, 20 Fret 5-piece mahogany/maple neck.

The traditional Roundback design features a deep depth contoured composite body that is extremely comfortable to play and hold. Other premium features include: hand-inlaid abalone appointments, a deluxe-grade ebony fretboard and bridge, and a beautiful hand-laid Oak leaf rosette.

## Legend Plus Series

Dive further into our Legend Plus series with our new Quilted Black Satin finish. Featuring both 12 and 6 string models, these guitars include all of the top-of-the-line specs found on our Exotic Wood series, including a 22 fret 5-piece mahogany/maple neck with a deluxe Ebony fingerboard.

The long-standing combination of premium soundboard materials and sonically-tuned bracing produces more volume and less dead spots in the audio spectrum. Every note is clear and balanced, no matter where you play on the fingerboard.

## Viper Series

Ovation is returning with one of its most iconic series of guitar, the Viper. This extremely fast-playing, semi-hollow acoustic model is unlike anything you have seen or heard. The chambered mahogany body and spruce top produce a sonic combination that will appease all playing styles, from chicken-pickin' to soft Jazz. Other stunning features include a mahogany neck, a 22 fret deluxe Ebony fingerboard, 3-band EQ Viper Preamp, and an Ovation OCP-1K pickup.

# Elite TX Series

## Elite TX Series

Ovation's Elite TX series continues to push the boundaries of what defines an acoustic guitar. Offered in Deep Contour, Mid Depth, and Super Shallow bowls, a deluxe solid-spruce top and Ovation's legendary lightweight, yet high-strength, bracing give these guitars tremendous sonic power. An ultra-thin finish allows the soundboard to resonate freely while sound ports on the bass string-side of Ovation's sculpted cutaway composite body enhance its lower-frequency projection. The slim, hard rock maple neck is shaped to offer the fast feel of an electric guitar. The OP-Pro preamp and OCP-1K pickup produce an uncompromised plugged-in performance that allows you to shape and mold your sound to achieve the perfect acoustic tone.

## Elite TX 8-String Baritone

Breaking new ground on the acoustic guitar front, Ovation proudly presents our first Roundback 8-String guitar. Building upon our philosophy of constructing unique instruments for visionary players, this massive sounding guitar opens up a new realm of playing possibilities. With its striking silhouettes and understated finish, this guitar makes a statement that's all its own. Featuring 34" scale with a 2.14" nut, the hard rock maple neck is specially-designed to handle the extra low end for maximum comfort, speed, and tonality.

### Candy Elite TX

Not only does Ovation push boundaries sonically, but visually, as well. Feast your eyes on our new candy-coated Elite TX models. Featuring Slime Green and Neon Red, these models are equipped with the traditional Elite TX appointments/hardware, making them the perfect guitars for the rock star that not only wants to be heard, but seen as well.

### Mandolins and Ukuleles

Ovation mandolins and Ukuleles take more than a half-century of esteemed craftsmanship and inspiring design to an unexpected platform, with features that speak to our spirited and forward-thinking philosophies. Main features include: solid spruce tops, ebony fingerboards, and our classic composite Roundback design with a cutaway. The OP-24+ preamp is guaranteed to bring out the brightest highs that these instruments can offer. In the same vein as our unique and resonant guitars, these instruments' highly-developed design includes such features as dutifully-constructed bracing and choice tone woods, giving you that signature Ovation power and projection no matter what stage you're playing on.

## Glen Campbell

Ovation's new Glen Campbell models feature a shallow "Vintage-Style Lyrachord" body used on early Ovation guitars from the 60's and 70's. The shallow body is designed to provide plenty of cut to overcome other instruments in the mix. You get a little less bass, a strong mid-range, and bright high-end which helps every note stand out in an arrangement. Ovation's "shallow bowl" design combines durable Lyrachord composite construction with a meticulously-engineered round-back design to deliver a richly-rewarding acoustic experience that is ideal for stage and studio alike. Offering cutaway and non-cutaway models, the shallow bowl is extremely durable and maintains the outstanding string-to-string balance of the original Ovation designs. This diminutive depth provides extraordinary playing comfort ideally suited to smaller players and those who prefer a slim-profile instrument. Designed to reduce hum and line noise, the FET preamp delivers stunning stereo output, and the waist-mounted individual volume and tone controls are quick and easy to adjust while performing. A contemporary version of the electronics that launched the Adams acoustic/electric line in 1979, the FET preamp is an Ovation classic.
