- Low battery indicator

1995 COLLECTORS' EDITION

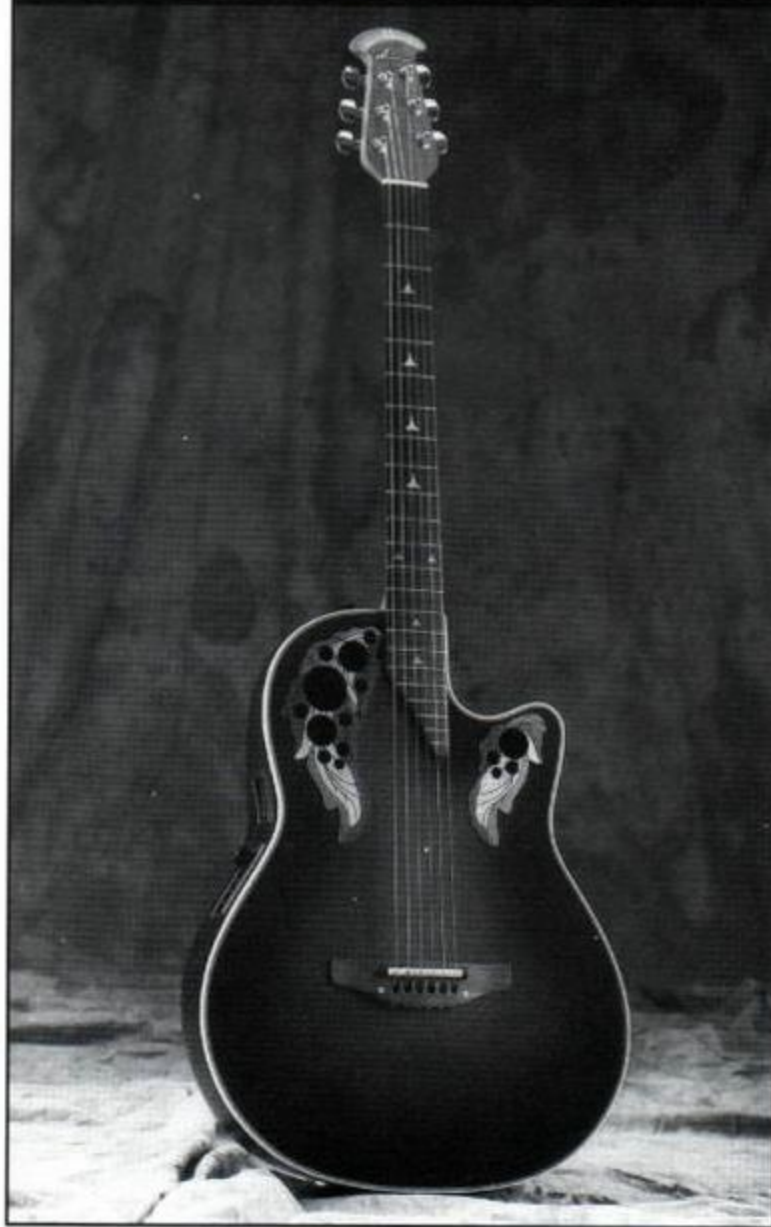

The 1995 Ovation Collectors' Edition marks a bold step forward in acoustic/electric performance with the introduction of the OptiMax system. The OptiMax combines the industry-standard Ovation bridge pickup with an ultra-miniature Telex microphone built into the bridge. The preamp and control section lets you blend the pickup and microphone levels as well as automatically shifting the crossover. The flexible outputs let you take the microphone out of the monitor mix, helping you fight feedback on stage while delivering a full-range acoustic sound to the audience. This superb performance instrument will be available in limited quantities during 1995.

- Solid Sitka Spruce Top with Nutmeg Stain
- Inlaid Rosette of Walnut, Figured Maple and Abalone
- Five Piece Neck Mahogany, Maple, Walnut, Maple, Mahogany
- Hand-rubbed Urethane Neck Finish
- Built-in Telex Microphone
- Totally New Preamp
- Limited Edition with Collectors' Certification

LONGNECK

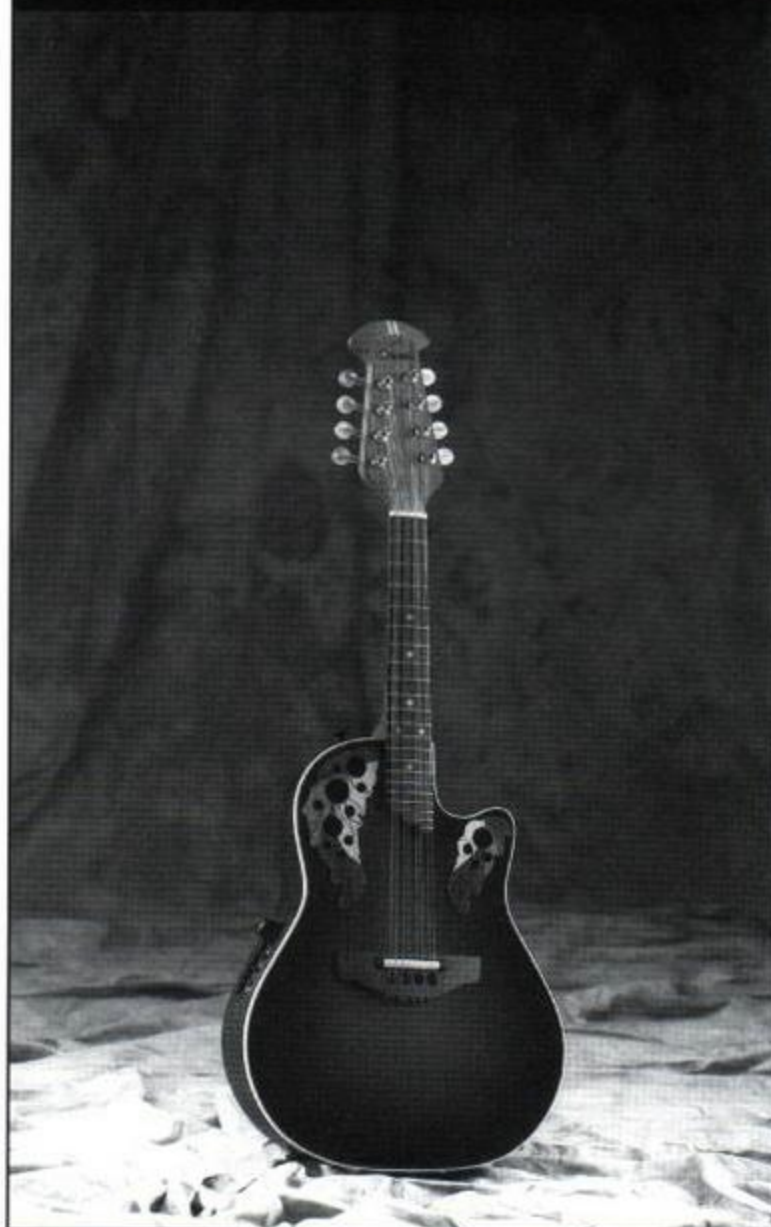

Here's an entirely new idea in acoustic guitars. The LongNeck has a 28.35" scale, so at normal string tension, it tunes a full step lower than a standard guitar. The sonic results are startling. Chords are bigger and "chunkier". Bass lines are deeper and cleaner. The tonal possibilities in standard and varied tunings are phenomenal.

- New for '95 OP-X Preamp •
- 28.35" Scale Length •
- Tuned Full Step Lower Than Standard •
- Mahogany & Maple 5-piece Neck •
- Quintad Bracing •

MANDOLIN

Every player who has struggled to get a good on-stage sound with a traditional mandolin will appreciate this instrument. It's the first mandolin specifically designed as an acoustic/electric. The acoustic sound is powerful, with strong midrange to cut through other instruments. The amplified sound is extremely well-balanced and controllable, even at high volume levels. Guitar players now have a great reason to seriously consider mandolin as a second instrument.

- New for '95 OP-24Plus Preamp •
- Solid Sitka Spruce Top •
- Mahogany & Maple 5-piece Neck •
- 21-fret Ebony Fingerboard •
- Mandolin Quintad Bracing •

FOLKLORE/COUNTRY ARTIST

Originally introduced in 1979, the Folklore and Country Artist have been updated and re-introduced at the request of a legion of fingerstyle players. The 1 7/8" neck width is wider than a regular steel string, but narrower than a classic. The Folklore is the perfect "in-between" size for fingerstyle players ... the Country Artist fingers easily for electric players. Both feature a mid-depth body, custom inlaid rosette and OP-X preamp bring this favorite right into the '90s.

- New for '95 OP-X Preamp •
- Solid Sitka Spruce Top •
- Mahogany & Maple 5-piece Neck •
- 21-fret Ebony Fingerboard •

ELITE BASS

The acoustic/electric bass has gone from oddity to acceptance in a few short years. Ovation Elite Bases out-perform other acoustic basses by a wide margin. The neck is rock solid with the patented Kaman Bar reinforcement. Since there is no central soundhole, the top can be more efficiently braced. This gives you more volume, better projection and superior strength. The Ovation pickup system delivers a strong output with controlled transients, no matter what string gauge you use.

VIPER

The line between electric guitar and acoustic guitar is blurring. Here's an instrument that makes the distinction even finer - the new Ovation Viper. From the ground up, the Viper is a new kind of guitar. Ovation designers worked closely with the solid body experts at Hamer Guitars to achieve just the right balance between the two worlds. The Viper is available in either steel string or nylon string versions.
