2007-BCS [^]	Deep Contour	6-string A/E	VN	\$2,279.00

Finish: VN- Vintage Natural

List price includes matching molded case. [^]: 9158

Ovation's 2007-BCS is the latest addition to the popular Collectors' Series instruments. This limited production guitar incorporates several of Ovation's most recent innovations and offers a unique blend of elegant styling and high-end performance. The 2007 soundboard is made from AAA grade Bear Claw Spruce, finished in Vintage natural stain. The top is fitted with scalloped bracing and a single, inlaid Spalted Maple epaulet that punches out tremendous volume. A "GS" Contour bowl helps maximize the acoustic output and is ergonomically designed for comfort in any playing position. Powering the electric side is the VIP "Virtual Image Processing" preamp. The VIP replicates the sound of great microphones in a great room and gives players studio-quality performance to take to the stage, or use in home recording.

2007 COLLECTORS' EDITION

ADAMAS

It's been said that the heart of an acoustic guitar is the top - it pumps out the sound. A stiff top will give you sparkling highs. A thin top will give you powerful lows. The problem with traditional wood tops is that you usually get one or the other but rarely both. By using two thin layers of carbon fiber wrapped around another thin layer of wood, Adamas guitars can give you both - in every climate and with just about any string gauge. Pick up an Adamas and hear for yourself. They're louder, better balanced, and cover a wider frequency range than any other acoustic guitar you have ever played.

Here's Ovation guitar making unbridled. Strum a single chord. Feel your insides rumble. The AAA Spruce top, the Roundback body, the five-piece neck and the pinless bridge are all crafted into an instrument that yields unwavering tonal control — lowest low to highest high — a clarity and volume that is simply unattainable to "traditional" guitar makers. Then we dressed it to kill with hand-inlaid abalone trim. The Maximum Ovation.

CUSTOM ELITE & CUSTOM LEGEND

List prices include matching molded case. ^c: 8158

Maximum sound with minimum playing effort. Warm. Woody. Rich. But with a clean, balanced response. The Lyrachord composite body allows us to do away with the sound-absorbent body bracing that inhibits even the highest quality flatback guitars. Plug an Elite or Legend in and you'll find that its acoustic "beefiness" is accentuated by its High Output pickup and studio quality preamp. More sound. Less work. Set after set. Night after night.

LEGEND & ELITE

BALLADEER

No other guitar is so steeped in Ovation history. Over the course of four decades we've fine tuned the Balladeer, component by component. The result? An instrument of unmatched value. Find out why the Balladeer has consistently been one of our best selling USA-made Ovations.

STANDARD ELITE

Ovation's Standard Elite models have a thinner, more responsive solid Spruce top and feature sound ports trimmed with four different types of exotic hardwoods. The sound is bigger, more even, and loaded with overtones. It is the ideal guitar for the player looking for great acoustic and acoustic-electric sound with playability of a solid body.

BALLADEER & STANDARD ELITE

- Solid Sitka Spruce Top
- Single Epaulet Design
- Two-piece Maple Neck
- Ebony Fingerboard
- Black Chrome Tuners
- OP 30 or OP Pro Preamp
- Ovation Slimline or High Output Pickup

These are the "hot rods" of the Ovation range - maximum performance, fast playing and unique styling. Ovation's famous lightweight/high strength bracing under the solid Spruce top gives the soundboard tremendous acoustic power. The pickup is specially designed to turn the Ovation acoustic thunder into electric lightning.

ELITE T SERIES

1778T-5

Finishes: 4- Natural

Cases^c: 8158

ULTRA

The new Ultra guitar uses sub-assemblies made at our offshore Ovation factory. The sub-assemblies are shipped to New Hartford, CT, where our skilled craftsmen carry out the final assembly and set-up operations. The result is a professional level instrument with the feel and playability of upscale USA made Ovation guitars.

Features such as the Deep Contour body, scalloped LX bracing, "soft V" neck profile, and the OP Pro preamp make the new 2071 one of the best values in the mid-priced acoustic/electric market.

2071

- Laser Cut Exotic Wood Epaulets
- Mahogany or Nato Neck
- Rosewood Fingerboard
- Walnut Bridge
- Ovation's Legendary 6-Element Pickup
- Precisely Tuned Fan Bracing
- Dovetail Neck Joint

We've applied 40 years of Ovation guitar making to design an affordable guitar that doesn't sound like an affordable guitar. The Celebrity Deluxe is proof of that. These guitars boast bigger sound than guitars that cost twice as much. In a large part that's due to the Lyrachord body - the same USA body found on it's upscale Ovation brothers. Ovation's award winning multi-sound hole technology is also incorporated in the Celebrity Deluxe Series to push out powerful acoustic tone and exceptional balance.

The Ovation sound. The sound that made the acoustic guitar a viable electric instrument is now within everyone's reach. Spruce tops. Rosewood fingerboards. Built by Ovation's Pacific-based subsidiary, these guitars benefit from the same Lyrachord body as their more upscale USA-made brothers. Acoustic/electrics that will earn their keep even as your playing skills mature.

950089X	Truss Rod Wrench - Peghead	\$6.00

Ovation makes a wide selection of models that are readily available through Authorized Ovation Dealers. To offer players an even greater choice of features and finishes, we have created a group of "Special Order" models that are not part of our regular production. We can also make custom instruments that do not appear in any catalog or price list.

Here is the difference between "Special" and "Custom" orders:

Special Orders

These instruments are listed in the Ovation Retail Price List under the Special Orders heading. These models can be delivered in three months from receipt of your order from an Authorized Ovation Dealer at no additional charge.

Left-Hand Models

Left-handed models are available by special order for most Traditional Series Ovation USA models at no additional charge. All mid-depth cutaway models are available, however preamp options are limited to OP30 and OP40.

Custom Orders

Custom instruments in special finishes and with options such as preamp changes, etc. can be ordered with some limitations. Custom instruments require a minimum of six months to build. Contact your Authorized Ovation Dealer for complete information and to obtain a price quote.

A 50% deposit will be required when you place your order.
